Sam H. Jones Service Scholarship Assessment Report (2017-18)

PURPOSE

To measure various indicators related to participation in the Sam H. Jones (SHJ) Community Service Scholarship Program, a questionnaire was administered in April 2018 to students who received a SHJ award for the 2017-18 Academic Year. This report encompasses the following SHJ programs: Alternative Break Team Leaders, Community Service Leader, Community Service Scholar, Family, School & Neighborhood Scholars, First-Year Service Scholars, Paws Pantry Scholars, and Service Corp Scholars. These 8 programs are referred collectively in this report as SAM Scholarships.

CIVIC-MINDEDNESS (N=66)
Civic-mindedness refers to a person’s inclination or disposition to be knowledgeable of and involved in the community and to have a commitment to act upon a sense of responsibility as a member of that community” (Bringle & Steinberg 2010, p. 429). The construct of CMG is comprised of ten domains (see the following tables), clustered by knowledge, skills, dispositions, and behavioral intentions. The CMG scale was developed to measure civic learning outcomes by assessing the extent to which respondents perceive themselves to have the capacity and desire to work with others in a democratic way to improve their community or to achieve public goods. Those who score high on CMG are expected to have an orientation toward the community as well as towards others in the community. Each item that comprises the CMG scale begins with a stem that refers to the SAM program (e.g., “My experiences as First-Year Service Scholar helped me to know a lot about opportunities to become involved in the community”). The items listed below do not include these stems. The following chart includes the Scholars’ aggregate levels of civic-mindedness for each of the domains across all 8 of the SAM programs.

Alternative Breaks
- “My high point overall, was standing on a beach in North Carolina on the spring break trip I co-led and feeling overwhelmed with happiness and satisfaction that I was able to stand there because of my interest in social justice. I reflected on the long road Julian and I took to plan a successful trip.”
- This year, my high point was researching community partners around the country and learning about particular ones that due to cost and distance, was unrealistic for the program to take on. I have a list of organizations that I will hopefully travel to and be a part of after graduation. There are so many cool organizations that stand for powerful values and I want to get connected.”
- “After our most recent spring break trip, seeing my participants on campus and hearing about how much they loved the trip and how they felt they truly learned while on the trip. Hearing their takeaways on the experience made the entire experience more wholesome as I felt, as an AB program, we truly make impacts on student experiences.”
- “The week where my co-leader and I were on our trip was definitely the high point.”
- “During AB reorientation, we created ‘zines’ (educational/artistic pamphlets) about our trips. I had to step out because I was ill that day. Later on, I was shown the zine that the participants made. It made me extremely happy to see my co-leader and I really did make a difference in them.”

RECOMMENDATIONS FOR IMPROVEMENT

Scholars were asked to share any suggestions they had about how to improve the Sam H. Jones Scholarship program for other students in the future. Below are their comments.

**Alternative Breaks**

- “The experience was a pleasure, but I think our advisor puts too much on her plate sometimes. She is AWESOME, but I think delegating more tasks would benefit all members of the scholarship program for growth opportunities and decrease the advisor’s workload.”
- “I propose a student-run website scrapbook. The IUPUI website does not attract students anymore and what we need is a way to introduce students to this program through photos and experiences. This website could also serve as a backup of past trips. It could almost be a blog. But for real, I wish the program was more conscious of religion. As a strong Catholic, I didn’t feel comfortable with some of the material we were trained on. The easy solution would have been to not be a part of this program, but I love AB and learning about social issues. I just wish that I didn’t feel like my Catholic beliefs limited my learning.”
- “I’d like to see more connection to Indianapolis after the trip ends.”
- “I thoroughly enjoyed my participation in the program, but strongly felt it was not inclusive to those with diverse political viewpoints.”

**Community Service Leaders**

- “I think the Cove is a great space, and could be used to encourage Scholars to mingle/work in at times. I think a program where students can engage with each other on political or social topics would be a way to enhance the Scholars’ experience, and could also enhance camaraderie.”
- “Make a ‘save’ button for the online application”
- “More team bonding to help foster relationships early on.”
- “N/A, looks like the program is already transforming and being revamped in the coming semesters.”
- “Have all CSL’s clock in/out for office hours.”
- “Stricter requirements. It was hard to see some individuals not be fully invested and still get by.”

**Community Service Scholars**

- “More cohort bonding activities at the start may help the groups get acclimated quicker.”
- “I recommend having some type of retreat or event for SHJ that allows everyone to reflect on the year of service.”
- “N/A. All great!” (5 additional “N/As”)
- “The communication and hour(s) requirement.”
- “The training material needs to be re-evaluated to ensure that meetings are the best use of time. Clear expectations of class work and student/professor roles should be expressed as early as possible.”
- “More guidance on impacting at your service sites”
- “Shorter trainings, different philanthropy instructor, more team building/socials”
RECOMMENDATIONS FOR IMPROVEMENT (Continued)

Family, Schools, and Neighborhood Scholars
- “We had some scheduling difficulties with the personal development meetings, but that’s really the only thing I can think of.”
- “With FSNE, I would consider creating more work/service opportunities for the scholars.”
- “Involve the FSNE Scholars with other scholars. There were times where it didn’t feel like we were a part of the same program.”
- “Be more realistic with the hours students should work”
- “Make scholar meetings more regular and help connections develop between scholars, scholars and staff, and scholars from other areas of the program (i.e. FSNE with Paws Pantry scholars)”

Fugate Scholars
- “This experience was amazing. The organization planned by the Fugate office was outstanding. I have no improvements.”
- “I would love more opportunities in which to get to know other Fugate fellows better, as well as the ability to talk more with outside professionals like in out monthly trainings.”
- “I think that this was a very valuable experience! The only suggestion that I have is to increase opportunities for involvement in the Near West community.”
- “Please give students the opportunities to lead their own lessons in the classrooms. I was lucky enough to have a teacher who supported me when I created lessons about college, science, and creative writing. I hope the other students can do that, too, and not just be glorified tutors.”
- “I love our monthly meetings, but it would be nice to see each other more often.”

Paws Pantry Scholars
- “N/A, I have been very satisfied with my time in the program.” (2 additional “N/As”)

Service Corps Scholars
- “Make each scholar do their own JITS based on a social issue they love. Make it like a capstone”
- “Continue to provide opportunities for scholars to connect and build friendships.”
- “Possibly more activities like the Skid Row conversation.”
- “Option to plan our own programs!”
- “I’d like to see more group activities. It might be because Service Corps were spilt up first semester, but I wanted to bond and get closer to those in Service Corps. At times it felt divided/individualized.”
- “The only suggestions I have is to encourage students to reflect on their service experience as they go through the program.”
- “Less time-constricted and more quality based”
- “There were times when the schedule confused me on service events.”
