

ACKNOWLEDGEMENTS

I would like to thank Dr. Linda Haas for helping me not only in this thesis, but also for being a mentor in my time at IUPUI. Though she was in Sweden this past spring semester, she chaired my committee and aided me at every step of the way. Linda was the first person to call me a feminist, and I believe without her support and personal example, I would not have even entered sociology or fathomed this specific thesis. I would also like to thank the second member of my committee, Dr. Ain Haas, for helping me with the entire methodology process and aiding me in the development of a more rigorous data analysis than I could have performed on my own. Thank you also to the third committee member, Dr. Peter Seybold, for providing a different but important viewpoint to my thesis. Finally, I thank Brent and my family for their support.

TABLE OF CONTENTS

Introduction.....	1
Literature Review.....	5
Specific Aims.....	22
Methodology.....	25
Design and Study Population.....	25
Measurements.....	27
Data Analysis.....	31
Results.....	33
Discussion.....	41
Conclusion.....	46
Appendix A, Coding Tables.....	49
2002 Census Occupational Codes.....	49
Specific Occupations Coded as STEM Careers.....	50
Appendix B.....	52
Table 1, “Distribution of Respondents”.....	52
Table 2, “Correlations and Descriptive Statistics”.....	53
Table 3, “STEM Career Choice and Means of Selected Variables”.....	54
Table 4, “Summary of Logistic Regression Analysis for Variables Predicting STEM Career Choice, Controlling for Selected Variables”.....	54
Table 5, “Stepwise Forward Logistic Regression (Likelihood Ratio) Predicting STEM Career Choice”.....	55

Table 6, “Analysis of Covariance for Sex, Race/Ethnicity, Household Income and STEM Occupation”	56
Table 7, ”Summary of Logistic Regression Analysis for Variables Predicting STEM Career Choice, Controlling for Selected Variables and Interaction of Female*Black/Hispanic/Mixed Race (non-Hispanic)”	57
Table 8, ”Characteristics of Women Who Choose STEM Careers and Comparisons with Other Groups”	58
Table 9, “Occupations of STEM Women”	59
