## Summary of cross-border philanthropy

The information on cross-border giving for Croatia comes from the Catalyst Balkans. The organization uses data from various sources to provide information on philanthropy where there is no or little official data.

### SENDING CROSS-BORDER CHARITABLE DONATIONS

While there are no specific costs or limitations from the authorities for private cross-border donations in Croatia, there are also no tax benefits for cross-border donations, only for domestic donations.

### RECEIVING CROSS-BORDER CHARITABLE DONATIONS

There are also no restrictions on receiving donations from abroad either; however, items that are paid for with this money are subject to VAT and 25 percent of monetary donations are taken by the state. (Indiana University Lilly Family School of Philanthropy, 2018)

### ESTIMATED CROSS-BORDER GIVING

According to Catalyst Balkans, approximately USD 43,531 was given to international projects in Croatia (Catalyst Balkans, 2020). The amount is based on the data from the Giving Balkans database, which uses alternative types of data and other available resources to make up for the lack of official data. From 1 January to 31 December 2018, a total of 9,678 records of all donor types were processed in the Giving Balkans database, of which 2,623 were unique.
