# Developing Incentives for Data Stewardship & Sharing

## Reaching out to develop key collaborations

### Academic Affairs
- Documenting Excellence workshops: lecture and hands-on activities on gathering citation-based metrics, altmetrics, examples of metric use in dossiers, specific tools to gather metrics
- Altmetrics workshop: lecture and hands-on activities on gathering and using altmetrics (to be offered in Fall 2014)
- Advocate for metrics measuring the impact of data as a scholarly product

### Professional Associations
- Monitor emerging practices through publications, conferences, and policies
- Attend conferences to engage with practitioners and researchers
- Develop formal connections between library associations and other professional associations to foster discussion of data sharing issues
- Encourage adoption of data citation standards

### Council of Associate Deans
- Provide information about emerging funding agency policies relating to data management, sharing, and retention
- Share information about support services and mechanisms for compliance available on the IUPUI campus

### Department Chairs
- Provide information about emerging funding agency, publisher, and professional associations relating to data management, sharing, and citation
- Share information about support services, cyberinfrastructure, and mechanisms for compliance available on the IUPUI campus

### Graduate Students
- Data Management Lab: provide training in effective data management practices to enable data sharing and reuse
- Enable informed decision making about dissemination of their scholarly products

### Indiana CTSI
- Develop a shared understanding of effective data management practices to enable data sharing and reuse
- Co-sponsor training on available IU cyberinfrastructure
- Share informational and training materials

### Institutional Review Board
- Develop a shared understanding of data sharing issues and mechanisms
- Develop guidance and sample language for Informed Consent Statements, Data Use Agreements

### Vice Chancellor for Research
- Co-sponsor workshops on meeting emerging funding agency policies relating to data management, sharing, and retention
- Provide guidance in measuring the value of IUPUI data shared and reused
