

2020 Bowen Biweekly Bill Brief (B4)

Produced by: Bowen Center for Health Workforce Research and Policy

Methods

Objective

To provide stakeholders with an update on legislative initiatives relating to Hoosier health, especially those initiatives with direct implications for the health workforce.

Disclaimer Prior to Analysis

The purpose of this document is not to make any type of recommendation in support or opposition of any policy initiative. Rather, the intent of the B4 is to provide a summary of policies in an organized, digestible, objective format to inform stakeholders of relevant policies/initiatives. We strive to keep our content and documents accurate, current and up-to date. However, because the legislative session changes rapidly, we cannot guarantee that all of the information on the site and services is completely current. Additionally, the information we provide in the B4 is not legal advice and is not guaranteed to be correct, complete or up-to-date.

Review of Introduced Legislation

At the beginning of Indiana's 2020 legislative session, Bowen Center research staff identified health-related legislation by reviewing bill titles and digests for health-related topics.

Inclusion/Exclusion Criteria

Only those bills deemed to be directly related to health are included in the B4. Bills with an indirect or secondary impact to health are excluded, along with any bill whose primary intent changed significantly since the bill's initial introduction (ex: vehicle bills). Bills with a specific and direct implications for the health workforce are distinguished separately on the spreadsheet.

Results are provided in Figure 1. In total, there were 148 bills identified with a direct impact on health. Of those, 41 bills were determined to be directly related the health workforce (referred to hereafter as "health workforce bills").

Figure 1

Reporting: Mechanism & Frequency

A spreadsheet was created which included the following information on all identified health bills: Status (Active/Dead), Bill Title, Bill Number (and link to iga.in.gov), Primary Topic, Summary/Health Workforce Implications, Primary Author, Chamber, and Step in the Legislative Process. After the first half of the legislative session concludes, many of the original bills from the spreadsheet will be defeated. Health workforce bills that are still "alive" in the second half of session will be updated in the spreadsheet and highlighted in a summary graphic. After the B4's initial release, this spreadsheet is updated bi-weekly and disseminated through an email platform.

Legend

Status

Active

Dead

Bill Title

Obtained from iga.in.gov listing.

Bill Number

As assigned on iga.in.gov listing.

Topic(s)

- Health care workforce
- Behavioral Health (substance use and mental health)
- Corrections
- Health care costs
- Health care facilities
- Insurance
- Maternal/Child Health
- Oral health
- Other
- Prescription drugs
- Prevention & awareness (public health, infrastructure, and healthy and active living)
- Safety net (TANF, SNAP, Medicaid, etc.)
- School Health

Summary/Health Workforce Implications

Produced by Bowen Center staff. See disclaimers below.

Primary Author

The author that initially introduced the bill.

Chamber

The chamber where the legislation currently resides.

Step

First Chamber
(1-6)

Second Chamber
(7-13)

Conference
Committee (14)
